Address - 141/47 Bholaram ustad marg, Indore, 452001
Contact - +91 **966984181**

EDUCATION:

Master of Computer Application(5 years)   CGPA(7.8/10)
    International Institute of Professional Studies, Devi Ahilya University   (July 2020- Dec 2025)

PROJECTS AND ACTIVITIES

- Contributed to a tool that makes it easier to create custom collections and databases for MongoDB database. The database name, the number of collections, the names of the collections, and important details may all be entered by users. Next, the program builds database collections and adds fake data of several different types, including String, Numeric, Boolean, Date, Array, and Objects (**source code**).
- Developed a hospital management project named Aapka Aspatal using the Flask framework. The project has *role-based authorization* and *authentication*, and it makes use of the SQLAlchemy database setup.

INTEREST

   Linux, Development (Flask, Django, MySQL), Automation script (Python), Web Scraping

---

SKILLS:

- **Programming:**   Python, Java
- **Database:**   Mysql, MongoDB, SQLAlchemy
- **Web-technologies:** Flask, Django, HTML, CSS
- **Version Control:**   Github, Git

CERTIFICATIONS:
- Java(Basic) certificate
- Python(Basic) certificate.
- CSS certificate Exam
- SQl (Basic) certificate Exam

PERSONAL INFORMATION:

Languages: English, Hindi

Relocation preference: remotely/any location in India
